Width	140cm (55") wide.

Technical Information

- We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.
- Not suitable for use as removable loose covers.
- Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.
- Technical specifications may be amended, please check for the latest information.
- Please ask if you require a sample of the current batch available but be aware that stock can move quickly.
- Cashmir can be colour co-ordinated with Agua faux leather collections to produce stunning furniture with dual textured finishes.
- Bespoke colours can be produced subject to minimum quantity orders.

Fabric Care

- Use a vacuum cleaner or soft brush to remove dust and solid particles.
- Always try cleaning products on a hidden piece of fabric to test suitability.
- Wipe frequently with a damp cloth to maintain the appearance of the fabric.
- All spillages should be removed immediately with a clean absorbent cloth.
- Poorly fixed clothing dyes, e.g. Denim, will cause permanent staining. Most stains can be removed using cold/warm water and a clean microfibre cloth.
- Stains from products containing oil and grease should be treated with a spirit based solution.
- Can be steam cleaned in situ.
- Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.
- If soap based cleaners are used, all soap residues must be rinsed from the fabric.
- Do not machine wash or dry clean.
- Remove all stains immediately before they set.
- Please refer to the Cashmir Fabric Technical Specifications PDF download on the Agua website for further details.
- Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Our Environmental Policy

Our products have always been phthalate free and Reach* compliant. Our processes are non-toxic and the methods used during manufacture and finishing ensure that potentially hazardous accidental cross contamination is minimised to the greatest degree possible. All our fabrics meet the stringent Oeko-Tex**

standards, regardless of origin, so are free from harmful chemicals and safe for human use.

* Registration, Evaluation, Authorisation and Restriction of Chemicals (EU regulation: 18th December 2006)

** See more: www.oeko-tex.com
